

NamaazTimer

Namaaz Timer software recites Adhans at the correct times, has Quran recitation before Namaaz, and now also includes Dua-e-Iftitah, Dua-e-Kumayl and Ziyarat-e-Waretha. It has several different reciters with beautiful and captivating recitations that will bring a fresh breath of life.

The Namaaz Timer software is compatible with Windows 98, Windows ME, Windows NT 4.0 with at least Service Pack 6a, Windows 2000 with at least Service Pack 4, Windows XP Service Pack 2 and Windows Server 2003.

The Namaaz Timer software is available in 2 versions: NamaazTimer Full Version 6.50 and the NamaazTimer 6.02 Lite version. The main difference between the NamaazTimer Full Version and the Lite Version is that the Full Version has a choice of more than 20 Surahs (some of them quite long) while the Lite version has fewer than 10 Surahs, most of them being short Surahs. Therefore, the Lite version is 8MB download and the Full Version is more than 100MB download. The Full version is recommended if you have a high speed Internet connection while the Lite version is recommended if you have a dial-up connection.

NamaazTimer 6 Features

- 1. You have a choice of listening to seven different Muaddhins. Each of them has a pleasant voice and has appeared on the radio and TV programs in Iran.*
- 2. You can set different Muaddhins for Fajr, Zuhr and Maghrib prayers.*
- 3. You have a choice of listening to a Surah from the Holy Qur'aan just before Adhaan is recited. There is a choice of more than 20 Surahs. It can be set to begin between 5 to 40 minutes before the Adhaan. (Please note: Some Surahs are short therefore if you were to choose a short Surah to begin, say 10 minutes before Maghrib Adhaan, then after the recitation of the Surah, and before the Adhaan, there would be no recitation for a few minutes.)*
- 4. Quranic Verses changing daily.*
- 5. NEW feature in version 6.5 - Dua-e-Iftitah, Dua-e-Kumayl, Ziyarat-e-Waretha.*
- 6. Namaaz Timings for several cities are available:*
